‘E-Commerce of Global Consulting Business®’

ICO to OCS transformation

By: King Krish, Founder

King Krish is an alias name used by founder p t kumar, for this Business.

Email: business@macroansy.org

Website: <https://macroansy.org/>

First Issue: 25 June 2019. Update: 15 July 2019

1.0 Transformation from ICO to OCS:

The term ‘Coin’ refers to \$BEEPower coin on ethereum blockchain.

ICO refers to Initial Coin Offer.

This document describes why this Startup Project’s ICO (Initial Coin Offering) is transformed to a new term OCS (Open Coin Sale). This term is a new term created by us, and is not present in the crypto currency eco-system at this moment.

The Project ‘E-Commerce of Global Consulting Business’ is a pure Information Technology Project and is a Software As a Service (SaaS) Project. This project was coded and tested during 2011 to 2014 and required funding for global scale up. ICO was planned, but the coins were not offered to Investors, but went on for Open Sale from first week of June 2018. Please read Executive Summary for details.

Coin Use Case Projects were launched during end of Dec 2018. Coin Private Sell-Buy, Personal Signature on Blockchain, Private Crypto Currency Bank, Crypto Coins Auto-Payments for e-commerce traders are the Coin ‘Use Case Projects’, which are commissioned and are online right now for service.

During June 2019, a final Structure of the company Macroansy® for its Entities and Projects were aligned and presented as a 100% completed structure.

The Coin 'Use Case Projects' Revenue forecast could be equal or more than the startup Project itself. The Coin has Intrinsic Value by the Coin 'Use Case Projects'. The \$BEEPower coin is deemed like Gold now.

So far we have not received investment from Investors and our Startup Project stands alone with its own grace with Coins having intrinsic value and deemed like Gold.

The term ICO is irrelevant to our Project now and the company Macroansy® decides to give a name for this Coin Sale as OCS (Open Coin Sale). This is a new term created by us for the crypto currency eco-system.

It is hereby declared that all references to ICO in our Project Docs and Agreements is deemed transformed to the term OCS and the essence and spirit of OCS is applicable to this Startup Project from this day of 25 June 2019.

As of 12 July 2019, the Startup Project 'E-Commerce of Global Consulting' has been segregated from \$BEEPower Coin funding through a separate declaration. This means that MAS© is not collecting public funding through Coin Sale for a future, yet to be commissioned Startup Project. Details about this declaration may kindly be read and understood through a separate declaration available at the Project website.
